MONEY, BONDS AND STOCKS.

Unusual Activity at New York, but Nearly All shares Bring Lower Prices. NEW YORK, Sept. 6 .- Money on call was easy at 11 22; per cent., the last loan being made at 1; closing offered at 1;.

Prime mercantile paper, 41 @6 per cent. Sterling exchange was dull but steady at \$4.84? for sixty-day bills and \$4.87? for demand. The total sales of stocks to-day were 255,892 shares, including the following: Delaware, Lackawanna & Western, 26,900; Erie, 6,035; Missouri Pacific, 5,100; Northwestern, 5,860; New Jersey Central, 9,200; Norfolk & Western preferred, 3,570; Northern Pacific preferred, 13,650; Ohio & Mississippi, 3,435; Oregon Transcontinental, 16,260; Reading, 36,355; St. Paul, 39,255; Texas Pacific, 9,100; Union Pacific, 9,980; West-

ern Union, 21,690. The stock market was unusually active during the forenoon to-day, but relapsed into the most intense dullness after that time, and while well held, though feverish and unsettled in the morning, became heavy to weak later in the day. There was a pronounced disposition on the part of the "bears" to hammer the market, and realizings in the coal stocks, which were very beavy, also led to seiling of other "long" stocks. The weak spot was St. Paul, and it received particular attention from the "bears" throughout the day. The uncertainty as to the dividend, a rumor that the company would make a new issue of bonds, and that Mr. Armour would resign from the board of directors, were all used with considerable effect upon the stock. The other grangers were weak, in sympathy, though the statement of the business of the Chicago, Burlington & Quincy, made public yesterday, may have bad some effect in that direction. The "bears," however, did not confine their attention to the grangers, and it was intimated that the Pennsylvania would withdray from the Central Traffic Association and that Commissioner Blanchard would resign; but many stocks were quite strong when the general market was weak in the forenoon and reached the highest prices of the present rise. The Villard stocks were the special strong feature of the day, though the early gains were not fully maintained. The Gould stocks were fairly well held, and the Vanderbilts were quiet and featureless throughout. The opening was rather irregular, but generally heavy, and the pressure on the list in the early dealings made the market very active, and in the first hour nearly one-half of the total number of shares sold during the dayiwere traded in. There was a feverish and unsettled tone to the dealings, but except in the grangers the market was very well held and even some advances were made, up to noon. The Villard stocks, and especially Oregon Navigation, which advanced 2 per cent., were prominent during that time. Toward noon, however, the entire list yielded to the pressure, and while the decline was slow and resisted at every point, it continued without interruption until the last half hour, when the lowest figures generally were reached. Lackabut in the last few minutes prices made slight recoveries, and the close was fairly steady at or near the lowest prices of the day. With the exception of Oregon Navigation, which rose I per cent, the entire active list is lower this evening, though, outside of St. Paul, which lost 11, and Rock Island, 1 per cent., the losses sustained were for fractional amounts only.

The railroad bond market was more quiet to-day, the sales of all issues amounting to \$1,137,-000, of which Ft. Worth & Denver firsts, which again came to the front, contributed \$113,000, and the Reading second incomes \$102,000. The rest of the business was remarkably well distributed and presented no feature of importance, and the fluctuations were for the smallest fractions. The final changes are generally in the direction of higher figures. Government bonds were quiet and steady.

CHICAGO, Sept. 6.-The situation in wheat this morning was about this: The "bears," who have lost Monday for a month fighting the advance, were afraid to sell what they considered too dear wheat "short," while the "bulls," who believe in still higher prices, were in shape to allow a further reaction in order to buy cheap wheat still cheaper. The cables quoted spot and futures quiet and unchanged. The news from the Northwest was as bullish as ever, but had less effect, because the trade had become used to the badly damaged crop statements. The first hour was a see-saw, with prices both above and below the closing price last right. December touched 931c and then jumped to 941c. returning to 93% about noon; October sold at 92 @ 921c, and May at 971 2081, acting very closely with December. Wheat was unusually strong at the close, when Decemtouched 94to and closed but a split under. The feature of the corn trade was the buying by Dunn & Co. and the very good demand for cash corn. Prices opened steady at last night's figures, sold up a few fractions early, reacted to the opening figures, and on a bulge at the time of the greatest strength in wheat, sold to over the close last night, and closed at 1 o'clock at 44fe for October. The trade in oats was mild, but the feeling firm, with a slight advance in prices. There was another yellow-fever scare in pork. The near futures opened 15 @ 200 under last night's figures. October sold down to \$14 and January to \$13.721, a loss of 35c and 121c, respectively, but had improved a little by the 1 o'clock close, which was at \$14.10 and \$13.80, a net loss of 25e on the near futures and 5c on January. Lard was not o much affected. October started .07to lower and January .05c lower, the former not going below this first figure. The close was at 9:80c for October, the loss being .02½c on near and deferred future deliveries. Ribs closed .07½ 2.10c lower than yesterday, fluctuating within a narrow range. During the afternoon session wheat was nervous, excited, strong and higher, closing at the top prices for the day. Corn was active and strong, closing to be higher than at 1 o'clock. Oats remained in light demand and steady. Pork was steady, and for year and January 21c higher than at I o'clock. Lard was quiet, steady and unchanged. Short ribs ruled xuiet at unchanged prices. INDIANAPOLIS MARKETS. A Brisk Trade in Progress and Firm Prices as a Rule.

INDIANAPOLIS, Sept. 6. In all departments to-day trade carried a brisk air, and as the month advances the outlook improves, and a feeling prevails that the business of the month is to be highly satisfactory. The firm tone to dry goods extends as well to fancy goods and notions. In this branch of business the volume of trade this week bids fair to be the largest in any week for some months, and when the grocery market is reached trade is active there. The advance on sugars and coffees of Wednesday is fully established, and further advances in both staples will not be a surprise. In fact, all staple groceries are upward in tendency. The provision market is fairly setive, and stocks are well reduced for early September. and holders of hog products are not disposed to make any concessions to reduce their stocks. The iron market is firm at the recent advance. Tinners' supplies are moving out well at strong prices. Druggists are baving a good trade. Oils are firm at the advance of last week. The produce markets are active. Peaches are a shade higher, while apples and pears range at the prices of the early part of the week. Poultry is weak at quotations. Eggs firm. Butter steady, and must be good to sell at our best quotations.

A sluggish market covers the local situation. The Indianapolis Market Report has this to say regarding the markets to-day: Wheat-Receipts posted for past two days, 56 cars, against 77 cars for preceding period. Market is weaker and demand dull; offerings increasing. No. 2 red salable at 91 @ 92fc, with some samples bringing as high as 93c. No. 3 red selling at 85 @ 90c, according to quality; rejected brings from 75 2800 for poor to good sample; choice selling at 82@ 84a. Corn-Receipts posted for past two days, 23 cars, against 26 cars for preceding period. Market is weak under free offerings. No. 2 white salable at 43 # @44 ic; choice colored No. 3 white at le discount; poor to average colored brings no premium over mixed. No. 2 mixed offered at 43je, with 42e bid. Oats-Receipts posted for past two days, 7 cars, against 31 cars for preceding period. Market is dull; little sold at 23 te, and more offered without buyers. Rejected is selling at 21 @3c discount.
